Join Cindy & Ellie as we weave our way through *Irresistible India*, visiting both the Northern Triangle and the Southern beaches & backwaters. Aside from the well known national treasures and sites we have planned time with local business women, visits to schools, a hospital, and private homes. We'll stay in comfortable, charming accommodation, always in safe locations. Think hotels, houseboats, and even a 600 year old fort!

This program will be briskly paced but not arduous, and a sense of adventure is absolutely necessary. If you've been reading the recent editions of Travel & Leisure or Conde Nast you will have some idea of just how fabulous the Indian spas are, and yes, we've taken that into consideration as well! In fact, we finish the tour with two nights on the beach at the gorgeous Leela Hotel & Spa in Kovalam. Spas, spirituality and shopping aside, we also devote time to exploring India's natural beauty by navigating the back waters of Alleppey and trekking through Periyar National Reserve - home to elephants, bison and wild boar.

True to Travel Concepts and Women With Wings style, we will have the best of local guides with us at all times, allowing us the opportunity to stop and take advantage of those serendipitous moments along the way.
